

<b><u>Deliverable Status</u></b>				
<b>Deliverables</b>	<b>What did you plan to accomplish</b>	<b>What did you actually accomplish</b>	<b>Size</b>	<b>Effort</b>
Utility Tree	• Do research	• Continued research from last week.	1 book and 3 research papers.	90 minutes
	• Individual contribution to prepare Utility Tree.	• Individual contribution	4 revisions	115 minutes
	• Prepare Utility Tree Document as a team.	• Lead the team and arrange for collaboration.	2 meetings	100 minutes
	• Team collaboration	• Team Discussion and collaboration.	10 revisions	100 minutes
	• Review and updates to documents based on team collaboration.	• Revised document after every team collaboration (if required)		
		• Reviewed the Utility Tree document for every revision and provided feedback.		
Engineering notebook	• Prepare engineering notebook based on the reading, course lectures, deliverables and accomplishment.	• Recorded key point from reading, course lecture and discussion. • Capture lessons learnt and plan for next week.	1 document	60 minutes
Reading material	• Read and understand chapter 14 - Design for Usability	• Read documents • Captured the key points in engineering notebook.	28 pages	90 minutes.
Course Lecture	• Watch course lecture and understand the course content.	• Watched the course lecture and captured key points.	2 lectures	180 minutes
	• Watch week 9 lecture	• Watched week 9 lecture and captured key points.	1 lecture	6 minutes
